Mixed Mode or Mixed Mode Lite? Let’s decide!
Scenario 1

Dr. Celine is going to teach a course with 200 students without TA support.
Prof. Brad checks that **40 out of 50 students will go online in the coming class**, only 10 of them will join his class physically.
Prof. Williams teaches a course with 50 students. **Peer interactions are crucial** in her course.

Almost half of the class committed to join in person.

She has **got a TA assigned** for the course.
